MY TWO NEW BOOKS, PUBLISHED IN 2021

What is Divine Energy, Jan '21

What is Present Reality, Feb '21

WHAT IS MOTHER NATURE'S PARADIGM FOR SHAPING AND LEADING THE PRESENT REALITY?

Mother Nature endows us with the infrastructural technological input that empowers us to grow into a leader, by developing a strategic awareness of both the pros and the cons of the present reality

Mother Nature liberates us for investing our work energy to complement her work energy and realize our desired universe, without our experienced cons of the present reality.

When our desired universe vision as a follower, turned leader, is compatible with Mother Nature's desirable creative energy mission, we become the technological input par excellence with Mother Nature.

By trading that technological input, each person becomes capable of leaving a person-effect as the instant legacy for the future.

PARADIGM FOR THE PRESENT REALITY IS 8-D

4-D of space

- Height: North
- Length: East
- Width: West
- Ground zero: South

3-D of time

- Past: Shaping the present and the future with its linear-effect
- Present: Shaping the future with its curvilinear-effect
- Future: Accelerating due to alpha constant factor and beta slope factor and moving apart from the one-dimensional future reality serviced by the absolute creator, Sun.

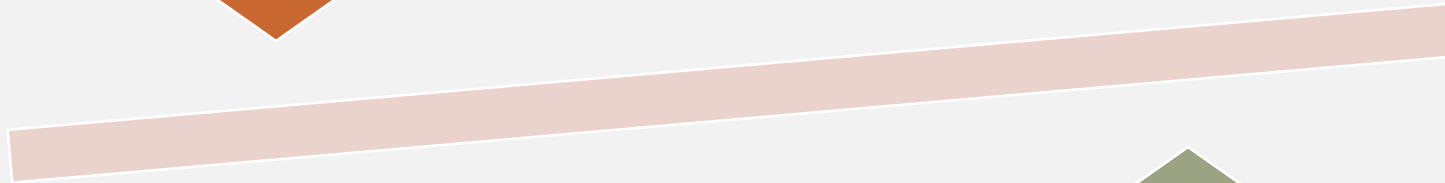

8th D of causation:

- The curving and accelerating factor: Universe of sentient entities, the 8th dimension of the natural octave.
- 8-D constitutes Mother Nature, infrastructure, and technological input we have as a leader for transforming the undesirable present reality into the desirable future reality.

THE PRESENT REALITY IS -2D

We perceive the present reality to be partially or wholly undesirable

We conceive a need to transform it by changing our behaviors, thus we experience our reality to be partially or wholly undesirable as well.

THE LEADER MOTIVATES A FOLLOWER TO
CREATE AN OBJECTIVE UNIVERSE, FREE OF
THE UNDESIRABLE SUBJECTIVITY

The “leader” (*Rajah, 0*) takes the -2D “present reality” (*Badhabuddhi vadartha, -2*) and makes that into an “objective” (*Vidhana, 2*) to be realized, free from the undesirable subjectivity, constituting the positive 2D “universe” (*Brahman, 2*) the leader wishes to live within and leave for the followers.

A follower becomes the “creator factor” (*Atman, 4*) who grants the wish of transforming the creation’s subjective element into the objective element by servicing a corrective “person-effect” (*Soham, 4*)

The leader-follower exchange is mediated by the integrated 8-D infrastructure Mother Nature gifts

SIX TOOL-KIT INGREDIENTS MOTHER NATURE USES AS A LEADER FOR REALIZING 6-D “NATURAL GROWTH” (KHARA, 6)

“Entropy” (*Ishvara*, 5) = Mother Nature becomes God, the entropy element, also known as the perpetuator factor, perpetuating our 100% freedom within her leadership reign

“Empathy” (*Tadanubhuti*, 1) = One life time of work energy = 1, where we have an intimate consciousness of the undesirable subjectivity in Mother Nature’s mission and the objective desired for actualizing our vision.

“Objective” (*Vidhana*, 2) = Our work energy + Mother Nature work energy that manifests the desired “universe” (*Brahman*, 2) = 2.

“Integrity” (*Brahma yajni*, 8) = The integrity of the integrated infrastructure for solving any challenge we have = 8.

“Creator factor” (*Atman*, 4) = Our role as a factor in creating the desired universe by transforming the undesirable present reality into 6-D natural growth that perpetuates eternally

“Humility” (*Vashyata*, 284). Moving apart and descendance of the animate Mother nature into an illusionary shadow, for teaching a lesson, influencing, and nurturing the inanimate nature to ascend and fall together with the animate nature, thus making each ascending follower-turned-creator factor an eternal leader, with an invisible, everlasting legacy.

SUMMARY

As a symbol of her humility as a leader, Mother Nature moves apart and descends herself beyond our vision horizon, so that we can freely conceive our leadership mission, without any followership consciousness and be the creators of our desired universe and live supernaturally as a leader for eternity without that universe by being naturally immanent within that universe.
